SUMMARY

Dynamic Front End Developer with hands-on experience in modern web technologies. Proven track record in developing responsive applications and optimizing performance. Committed to leveraging strong collaboration skills to enhance team projects and deliver exceptional user experiences.

EXPERIENCE

Front End Developer Intern, 01/2025 - 09/2025

Phyniks Dreamlabs LLP. - BANGALORE

- **Albus AI Project:** Developed the frontend using **React** and **Next.js**, building server-side rendered (SSR) components to optimize performance and SEO, resulting in a faster and more search-engine friendly application.
- **Creator Pro Project:** Engineered a web application for extracting and analyzing YouTube video transcripts by integrating the **YouTube Data API**, featuring a clean UI built with **Chakra UI** for users to search, retrieve, and manipulate transcript data.
- Utilized frontend frameworks and libraries like **Tailwind CSS** and **Chakra UI** across projects to rapidly prototype and build responsive, user-friendly interfaces, ensuring design consistency and development efficiency.

PROJECTS

Employee Task Management System | React, Redux, CSS

- Engineered a full-featured frontend app to streamline team productivity and project tracking.
- Implemented CRUD operations for task management, enhancing workflow transparency.

Threads Clone | Next.js 14, TypeScript, Tailwind CSS

- Developed a full-stack social media app inspired by Meta's Threads
- Leveraged Next.js App Router and SSR for superior performance and SEO.

Classic Game Suite | JavaScript, HTML5 Canvas, CSS3

- Architected interactive browser games (Tic-Tac-Toe, Snake) from scratch.
- Implemented game state management and collision detection algorithms.
- Designed a responsive and animated UI to enhance user engagement.

Productivity Toolkit | React, LocalStorage API, CSS

- Created a dynamic app with a persistent todo list and stopwatch timer.
- Utilized LocalStorage API for data persistence across sessions.

SKILLS

Programming Languages: JavaScript, C++, Java, SQL, TypeScript, Next.js

Frontend Development: React, Redux, HTML5, CSS3

Backend Development: Node.js, Express.js, NestJS

Databases & Tools: MongoDB, MongoDB Atlas, Mongoose

Development & Tools: Git, GitHub, REST APIs, Figma

EDUCATION AND TRAINING

Bachelor of Engineering Technology :

Computer Science, Expected in 2026

Acharya Institute of Technology - Bengaluru, India
